

JointsPACS

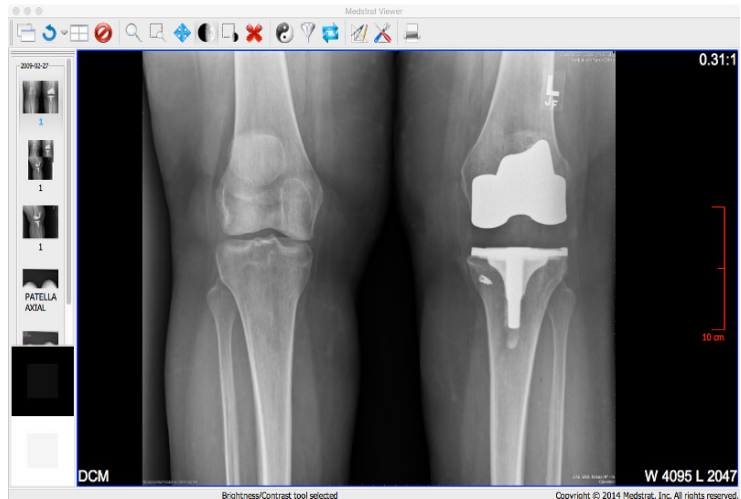

Solid, Simple, Smooth

Are you looking for a new PACS to support your current workflow?

Do you need a PACS solution that understands the needs of a high volume orthopaedic practice?

Medstrat has been perfecting its orthopedic software solutions for nearly two decades. Our Joints PACS solution can support your

practice's current workflow and keep you running smoothly, day after day. You'll find that Joints is fast and intuitive because it is focused only on solving orthopedic needs like yours.

Convert to Joints PACS

Our conversion process is simple and painless. We built Joints to fit into the way you already work while keeping your data intact during your switch. We can even work out payment solutions with you so that you are not paying for a PACS all over again

Joints PACS Benefits

- Pure Orthopedic PACS
- Latest templates from all major manufacturers
- Simple EHR integration
- Full-featured desktop and zero-Install web browser app
- Advanced MU Stage 2 compatibility
