Position Title: Business Analyst
Department: Quality Assurance
Reports To: Quality Assurance Manager

Summary

This position is a customer and employee-facing position responsible for ensuring Medstrat products are designed to meet customer needs and intended uses. The Business Analyst facilitates communication between stakeholders and teams while gathering user information, researches and helps discover user needs, and assesses a solution's ability to satisfy users. This position reports to the QA Manager.

Responsibilities

- Analyze internal and external requests to add product features.
- Communicate with stakeholders to understand their workflows and objectives.
- Develop draft User Stories and Business Rules to document user needs and intended uses.
- Collaborate with Engineering and QA to review and improve gherkin Scenarios.

Qualifications

- Bachelor's degree
- Experience interacting with internal and external stakeholders to understand business needs.
- Sufficient writing skills to define those needs as clear and concise Stories and Rules.
- Sufficient reviewing skills to provide feedback for gherkin Scenario drafts.
- Academic or professional experience with BDD and gherkin.
- Knowledge of Example Mapping is a plus.
- Knowledge of Orthopedic terminology is a plus.
- Knowledge of PACS/MIMPS functionality is a plus.

Please submit resume and additional documents to jobs@medstrat.com.
